

AVENTOS HK-XS

An excellent choice for wall cabinets

Because AVENTOS cabinet doors open upwards, they provide an excellent view into the cabinet interior. This enables comfortable and ergonomic access to storage items. The kitchen user retains freedom of motion by keeping the cabinet door out of the way.

The AVENTOS program opens up a whole new world of design possibilities for kitchens and office spaces. Even wide doors can be accommodated allowing upper cabinets to mirror the same look as wide base cabinets to create a uniform look.

AVENTOS HK-XS – Small Stay Lift

- Offers a high level of design freedom for small top wall cabinets thanks to its narrow style
- Cabinets with low internal depths can also be equipped
- For large and heavy fronts, attach a lift mechanism to both sides of the cabinet
