

# 4500 Series Drawer Slide

DuriSlide™ 4500 is a smart and economical choice for a 100 lb. class, full extension, ball bearing slide solution. Designed to meet the needs of today's value conscious cabinet maker, DuriSlide™ 4500 meets BHMA Grade 1 test standards.

The DuriSlide™ 4500 features a non handed design, industry standard 1/2" side clearance and a lever disconnect for easy drawer removal. Ball bearing construction delivers a smooth operation and a positive stop bumper provides an anti rebound feature.
