

# CONTACT ADHESIVES

Qualifies for LEED®-NC & CI EQ Credit 4.4: laminating adhesives shall contain no urea formaldehyde resins

## F-157 Flammable Contact Cement

F-157/F-157R is a spray grade contact adhesive for flat work. Natural in color.

### BENEFITS:

- Flammable spray grade contact cement
- Excellent adhesion to a variety of substrates including, but not limited to laminates, particle board, plywood, hardwood, leather, rubber, and metal
- Excellent room temperature contactability
- Excellent green strength and high heat resistance
- Excellent spray-ability (hot or cold spraying)
- 17% solids +/- 1%

## F-260 Flammable Contact Cement

F-260 is a fast-drying, contact adhesive designed to produce a strong permanent bond in the decorative laminate industry. It can also be used for general purpose applications such as headliners, carpeting & foam fabrication. Its outstanding features include high initial tack, high green strength and long open time. Light brown in color.

### BENEFITS:

- Fast drying
- Quick setting
- Long open time
- Higher solids
- 28.1% solids
